dien for improved facilities on Williamsburg Bridge, resulting as Evening World's fight for red the strong advocacy made for the Board of Estimate voting for faining of several streets contigutes bridge on the Brooklyn side, reating several direct and company the right to lay its tracks on widened Delancey street it was an act of "dublous expediency," "Do you mean to infer that I was acting in league with the Metropolitan acting in league with the Metropolitan company?" demanded President Ahern, hotly.

"No," replied the Comptroller "but I do mean to say that it was dublous expediency is give the Metropolitan rail-road a moral hold on the city by the issue of a permit to lay tracks on Deway from the bridge structure, the project was not determined however, the matter being alto go over until the next import calendar comes before the many for needed improvements. Brooklyn end of the bridge the decided to extend Grand street is not a with of eighty nough Montrone avenue from avenue to Broadway and to exceeded a venue from Hayward the bridge plaxa.

Extension of Budford avenue it prove a blessing to the East-tot, the prove a blessing to the East-tot.

TEMPORARY RELIEF AT

THE BRIDGE IS IN SIGHT

Board of Estimate Votes \$200,000

impowered to proceed with the temof the big structure, the Board of Estimate having to-day voted for an is sue of \$200,000 corporate stock to meet the expenses to be incurred in the Com-missioner's newly proposed plan for

delegations appeared before the to three the adoption of one of veral plans projected, but their near were not called upon to urge the plans. The Board discussed they without outside help trong the many interested cities and acted promptly.

It was remarked following the action of the Board that at no time in the recent history of the city has the Board acted so promptly on a municipal enterprise involving so large an amount. Bridge Commissioner Best's plans contemplate the extension of the present planted that the widening of each very of the city upward of \$4,000,00. The to which the streets will be a gree liberally planned and its clity upward of \$4,000,00. The to which the streets will be a real liberally planned and its eluganent of the Board that a their new form will serve all susts of traffic. The improvement.

The Commissioner Best's plans contemplate the extension of the present platforms elisticity over the Bridge and the wifening of the present terminal shed, which will permit of the addition of two new plutforms and the use of extra tracks. The increased number of two new plutforms and the use of them.

The Commissioner proposed plant for improvement.

The wife of the Board that at no time in the recent history of the city has the Board that at no time in the recent history of the city has the Board that at no time in the recent history of the city has the Board that at no time in the recent history of the city has the Board that at no time in the recent history of the city has the Board that at no time in the recent history of the city has the Board that at no time in the recent history of the city has the Board that at no time in the recent history of the city has the Board that at no time in the recent history of the city has the Board that at no time in the recent history of the city has the Board that at no time in the recent history of the city has the Board that at no time in the recent history of the city has the Board that at no time in the recent history of the city has the Board that at

friends, in trying to adjust his affairs, found that he had outstanding contracks for about 200,000 shares of stock. His position, according to rumor, necessituted the buying of a large quantity and regulations more effective, or to kopf went before Magnetrate Furlong in

"In this connection I ask your consid steel stocks going, and U. S. Steel shares joined briskly in the movement. Statutes of the United States

were executed with difficulty. Rail-

"Experience has shown us that it is toily to expect any dgree of care of human life from most of the owners of such vessels where immunity in whole or in great part from damages for neglect to provide proper equipment or a competent crew can be easily obtained under the law.

"I therefore suggest that section 4.13 be amended by the addition of the following:

be amended by the addition of the rollowing:

"Provided, however, that the owner
or owners of any steamer, or vessel
of any character, carrying passengers on any bay, harbor, lake, river,
sound or linand waters of the United
States, be not entitled to avail himself, itself or themselves of the provisions of this and the seven preceding sections of this act, if the loss
of life, personal injuries, or loss or
damage be caused or contributed to
by the insufficiency or incompetency
of the officers or crew, or by the
lack of proper equipment of said
vessel, or by the omission to comply
with all or any of the provisions of
title 52 of these statutes.

"I also think that an effective way
could be devised under United States
statutes by which municipalities, without any conflict of jurisdiction with the
Federal authorities, could find protection for its people against these violaters of the law.

Heavier Penalty. Too.

Heavier Penalty. Too.

"But the penalties for infraction or neglect of the Federal regulations by owners and operators of vessels would have to be made more stringent. The imposition of a fine will hardly change the objectionable conditions.

"From humane motives and in the increst of public health the city raised the charred hulk of the vessel to recover the bodies of the dead in and under it. To do this and to inter many of the dead the city had to expend over \$54,000.

of the dead the city had to captul over \$34,000.

"Private charity gave munifi-cently to relieve the financial need of many of the distressed families of the dead, but to.day there is little prospect that either the widowed, the orphaned or the city will receive any compensa-tion from the company responsiture and apparently strong and well-grounded in health, but Dr. Santurn, who has charge of the female ward, fears he cannot save her without the aid of an incubator. He telephoned to this city for one and hopes to have the Silvers mite safely installed in it tion from the composite for the disaster.
